Dense tensors, $J_{i_1 i_2 i_3} = \pm 1$
(Class I)

Dense random tensors
(Class II)

Sparse random tensors
(Class III)

(a)

(b)

(c)

Maximum value of η

Problem size

(d)

(e)

(f)

Median value of η

Problem size

(g) Histogram of solutions, $N = 100$

(h) Histogram of solutions, $N = 100$

(i) Histogram of solutions, $N = 100$

Probability

η
